

Terrazza Pure

The cubic glass patio roof

CUBIC

NOW

Awarded with:

Awnings Patio roofs Glasoasen®

CLEAN LINES

Spectacular design – sophisticated technology: behind the modern cubic style of roof on the Terrazza Pure there is an extremely innovative design.

Standard patio roofs are designed angled so that rainwater can drain off. But not the Terrazza Pure! Here the pitch is integrated into the frame construction and is therefore invisible from the outside. The result: a clear, cubic design combined with reliable drainage. Terrazza Pure is the perfect solution for anyone who wants to enjoy lots of natural light on their patio and appreciates reliable, modern designed weather protection at the same time.

PURE INNOVATION

The rectangular construction is the result of weinor's unique glass support system.

ENJOY LIFE AL FRESCO

Enjoy your patio from the first day of spring until well into autumn: weinor's Terrazza Pure patio roof will keep you well sheltered from the wind and other elements. And your patio furniture can remain outside without being damaged.

PURE AMBIENCE

Design your patio to suit your personal taste!

For the space on your patio to become your own personal feel-good spot, doesn't just require sophisticated design but also an atmospheric mood. Terrazza Pure offers both. The cubic elegance is complemented perfectly by high-quality decorative strips and the unique lighting concept for posts and roof supports.

EXCLUSIVE DECORATIVE STRIPS

With the 5 decorative strips (silver aluminium, copper aluminium, brown aluminium, brass aluminium and anthracite aluminium) you can break totally new ground with your patio design. The anodised aluminium material gives your Terrazza Pure an elegant look.

The decorative strips can be integrated:

- Across the entire length of the posts' outsides
- On the underside of the centre roof support
- Sideways on the outer roof supports

A HIGH-QUALITY LOOK

You can create a patio to suit your personal taste using the weinor decorative strips. The Terrazza Pure posts and roof supports can be designed with these.

LIGHT IS LIFE

Present your patio to look spectacular! You create effective accents on your patio with the high-quality coloured LED strips integrated into the posts and roof supports.

ATMOSPHERE

LIGHT

PLAY WITH COLOURS

Are you more in the mood for green today or rather blue? With the high-quality LED strips you are guaranteed to set the right tone. Your light is distributed evenly resulting in an incomparable atmosphere. Select from a variety of colour shades, dependent on the control system.

A HIGH-QUALITY LOOK

You can create a patio to suit your personal taste using the weinor decorative strips. The Terrazza Pure posts and roof supports can be designed with these.

LIGHT IS LIFE

Present your patio to look spectacular! You create effective accents on your patio with the high-quality coloured LED strips integrated into the posts and roof supports.

NUMEROUS LIGHT OPTIONS

Plan your own lighting concept! Where would you like to fit the coloured LED strips? To the roof supports or rather the posts? Or even both? No problem! weinor has a variety of options so you can **immerse your patio in the right** light.

You can choose where to create the coloured light accents:

- On the outside of the upper or lower posts
- On the underside of the roof support, e.g. alternating with the decorative strips of your choice too.

The integrated LED lighting can be conveniently controlled and dimmed via a hand transmitter using radio controls, a Smart Home app with a smartphone or tablet. The colours can be set at the press of a button.

STAY OUTDOORS

White snow is **BEAUTIFUL AND SAFE** on the Terrazza Pure glass roof. The construction can be designed for extremely high snow loads.

Enjoy the al fresco life – even when it gets cooler! With the w17 easy full glass sliding door you transform your Terrazza Pure into a weinor Glasoase®.

You don't have to retreat into the house as the days get colder quite yet. Simply fit the frameless w17 easy full glass sliding door from weinor to your Terrazza Pure, later on too. As a result, you can enjoy your patio protected from the wind and other elements on sunny winter days too – with an unobstructed view of nature.* It's even cosier in the weinor Glasoase® with the Tempura heating system.

Awarded with:

* The weinor Glasoase® is a cold conservatory system that protects the patio from the wind and rain but is not another living room.

GLARE PROTECTION

PRIVACY AND

VertiTex II vertical awning can be used for the best possible privacy, glare and sun protection all the way round the Terrazza Pure

Would you like to be protected from prying eyes and dazzling light from the sides and front? Then the VertiTex II vertical awning from weinor is the right choice. The **screens by weinor® collection** specially developed for the VertiTex II includes a large selection of high-quality fabrics. And the patented weinor Opti-Flow-System® ensures perfect fabric positioning. VertiTex II for Terrazza Pure is also available in the attractive looking VertiPlus version with design cover.

The weinor my collections 2 and screens by weinor® fabric collections have the right awning pattern to suit every taste and any application.

Sun and weather protection with a seamless look

With Terrazza Pure VertiPlus, the vertical awning's square cassette is integrated so cleverly into the glass patio roof that there are no visible transitions, edges or attachments. Everything **matches perfectly** – in terms of both technology and appearance.

Homely conservatory awnings

The **Sottezza II conservatory awning** promises a pleasant climate on your patio. The decorative sun protection is elegant, sleek, understated and easy to clean. As the Sottezza II is fitted under the patio roof. This protects it from moisture and dirt leaving the fabric attractive and clean.

COMFORT

QUALITY &

High-quality materials – intelligent solutions – lots of comfort

Terrazza Pure from weinor has been designed with an impressive level of sophistication. **The aluminium construction is statically tested** and is extremely durable. A **heating system and the remote** or Smart Home control of awnings and more also promise a high level of comfort whilst the impressive selection of frame colours allows the patio roof to be personalised.

Glass support with integrated pitch

Reliable protection against the rain

The roof support beams are proven to be both strong and durable, and are designed to be **watertight** so no water can get in around the glass supports. In instances where there is a wall connection to one side the installation is carried out using a cover profile. This covers the roof support and provides rain protection.*

Terrazza Pure technical data

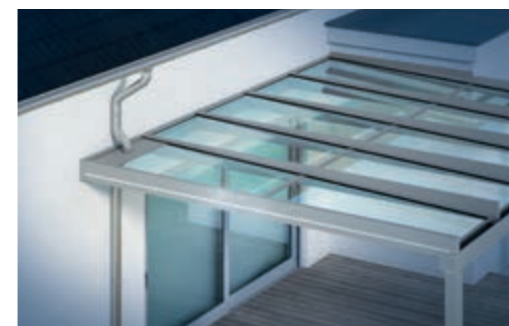

Max. roof width	7 m
Max. roof depth	4 m
Max. clearance height/ bottom edge of gutter	2.60 m (or 2.90 m)
Snow load	75 kg to 550 kg per m ²

* It is not possible to install decorative strips on the cover side

Multi-section units also possible

For larger patios, several Terrazza Pure can also be built next to each other. The resulting gap between the posts and roof beams is concealed by a practical cover profile.

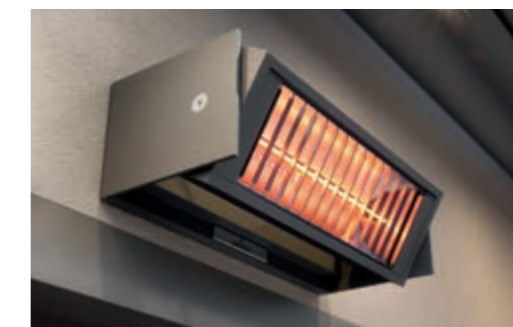

Problem-free integration of downpipes

Downpipes or waste pipes can be easily accommodated using transoms or aluminium filling panels. And unsightly overhangs, soffits or facades can be concealed from below.

Pleasant warmth

The compact **Tempura Quadra heating system** subtly blends into any architectural style. The warming infrared rays can be felt as soon as the system is switched on. A high degree of 91% efficiency is achieved due to the concentrated radiation thanks to strong reflectors.

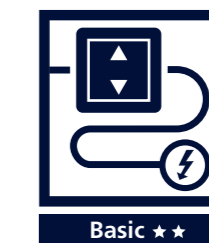

The latest frame colours

At weinor you can select from **more than 50 standard colours and over 150 other RAL colours**.

The right control unit to suit all needs

weinor product control options

Basic ★★

Comfort ★★★

Smart ★★★★★

Further information is available under www.weinor.com/control.

Whether hard wired, remote control or Smart Home, using a hand transmitter, smartphone or an automatic weather system – a wide range of control options are available for the operation of weinor awnings and accessories, from weinor BiConnect or Somfy. Simply choose the appropriate control package Basic, Comfort or Smart. Coloured LED strips and the heating system can be dimmed fine-tuned using remote controls or Smart Home. Your weinor retailer is happy to advise you competently.

Please note that the systems BiConnect and Somfy available from weinor cannot be combined. Coloured LED strips controlled by weinor BiConnect serve exclusively to generate coloured light.
